www.jobdevelopment.org/nnd

The **National Networking Day for Job Developers** is a pan-Canadian opportunity for job developers to gather together in their own communities with employer engagement professionals to discuss areas of mutual interest, learn about what each organization does, gather insights into the challenges and unique strategies job developers utilize and develop an understanding of best practices. There will be opportunities for the group to join counterpart groups online in their province as well as across Canada.

Barrie is just one of dozens of communities participating across the country but we are looking for local professionals to participate so we can come up with local solutions, insights and perspectives.
