Workshop Outline

Resilience, growth and labour market progress in the face of economic uncertainty

The labour markets of New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland and Labrador are being transformed by unprecedented forces in trade, global partnerships, the growth of AI, immigration changes and an ongoing skills shortage. Leaders in government, education, business and industry are working to overcome and thrive within these changes. This workshop will examine these efforts, provide details and project how this new environment will transform each of the provincial labour markets.

Online Session

Fri. Dec. 11, 2026

9:30am-3:30pm

Hosted on GotoWebinar
